The Board expects students to conduct themselves in keeping with their level of maturity, with a proper regard for the rights and welfare of other students, for school personnel, for the educational purpose underlying all school activities, and for the care of school facilities and equipment.

The Board believes that standards of pupil behavior must be set cooperatively by interaction among the students, parents/guardians, staff and community, producing an atmosphere which encourages students to grow in self-discipline. Such an atmosphere must include respect for self and others, as well as for district and community property.

The Board directs the superintendent to develop and implement a code of student conduct which establishes standards, policies and procedures for positive student development and student behavioral expectations on school grounds, including on a school bus or at school sponsored functions, and as appropriate, conduct away from school grounds. The Board shall direct development of detailed regulations suited to the age level of the pupils and the physical facilities of the individual schools. Board policy requires each pupil of this district adhere to the rules and regulations established by the administration and to submit to such disciplinary measures as are appropriately assigned for infraction of those rules. The superintendent shall provide to pupils

and their parents/guardians the rules of this district regarding pupil conduct and the sanctions that may be imposed for breach of those rules. Attempts will also be made to informing parents/guardians whose primary language is other than English.

In developing the standards, policies and procedures to implement this policy, the superintendent shall ensure that the code of student conduct:

- B. Is based on locally determined and accepted core ethical values;
- C. Is board approved.

The superintendent shall develop regulations that:

- A. Require pupils to conform to reasonable standards of socially acceptable behavior; respect the person, property and rights of others; obey constituted authority and respond to those who hold that authority;
- B. Establish the degree of order necessary to the educational program in which pupils are engaged.

The Board will annually review and update the code of student conduct and this process shall include:

- A. Parent, student and community involvement which represents, where possible, the composition of the schools and community;
- B. Consideration of the findings of the annual reports of student conduct, suspensions and expulsions; and incidences reported under the electronic violence and vandalism reporting system.

The superintendent shall annually:

- A. Disseminate the code of student conduct to all staff, students and parents;
- B. Report on the implementation of the code of student conduct to the board at a public meeting in accordance with N.J.A.C. 6A:16-7.1(a) 5, i-iv
- C. Report to the New Jersey Department of Education on student conduct, including all student suspension and expulsion and incidences reported under the electronic violence and vandalism reporting system.

Pupils who display chronic behavioral or academic problems may be referred to the child study team by the intervention and referral services team or building principal for possible identification as disruptive or disaffected. Such referrals shall be in strict accordance with the due process regulations prescribed by administrative code. Pupils so identified shall be provided with appropriate programs and services as prescribed by the child study team.

A pupil whose presence poses a continuing danger to persons or property, or an ongoing threat of disrupting the academic process, may be suspended or expelled, following due process.

Any pupil who commits an assault (as defined by N.J.S.A. 2C:12-1) upon a Board member, teacher, administrator or other employee of the Board shall be suspended from school immediately according to

procedural due process, and suspension or expulsion proceedings shall begin no later than 30 calendar days from the date of the pupil's suspension.

When possible, teachers should be at the door to their rooms, while students are passing from class to class.

This authority shall be exercised only when it is reasonably necessary for the pupil's physical or emotional safety, security and well-being or for reasons relating to the safety, security and well-being of other pupils, staff or school grounds, pursuant to N.J.S.A. 18A:25-2 and 18A:37-2, and when the conduct which is the subject of the proposed consequence materially and substantially interferes with the requirements of appropriate discipline in the operation of the school. The board directs the superintendent or his or her appropriately trained and qualified designee to develop detailed regulations suited to the age level of the pupils and the physical facilities of the individual schools.

RANGE OF WAYS TO RESPOND TO HARASSMENT, INTIMIDATION OR BULLYING

The board of education recognizes that some acts of harassment, intimidation or bullying may be isolated incidents requiring that the school officials respond appropriately to the individuals committing the acts and provide support programs for victims. Other acts may be so serious or parts of a larger pattern of harassment, intimidation or bullying that they require a response either at the classroom, school building or school district levels or by law enforcement officials.

In considering whether a response beyond the individual is appropriate, the administrator shall consider the nature and circumstances of the act, the degree of harm, the nature and severity of the behavior, past incidences or past or continuing patterns of behavior, and the context in which the alleged incident(s) occurred. Institutional (i.e., classroom; school building; school district) responses include:

- B. Mailings;
- C. Focus groups;
- D. Adoption of research-based bullying prevention program models;

For every incident of harassment, intimidation or bullying, the district shall respond to the individual who committed the act. Responses may include:

- A. Individual responses can include positive behavioral interventions (e.g., peer mentoring, short-term counseling, life skills groups) and punitive actions (e.g., detention, in-school or out-of-school suspension, expulsion);
- B. Classroom responses can include class discussions about an incident of harassment, intimidation or bullying, role plays, research projects, observing and discussing audio-visual materials on these subjects and skill-building lessons in courtesy, tolerance, assertiveness and conflict management;
- C. School responses can include theme days, learning station programs, parent programs and information disseminated to pupils and parents, such as fact sheets or newsletters explaining acceptable uses of electronic and wireless communication devices;
- D. District-wide responses can include community involvement in policy review and development, professional development programs, adoption of curricula and school-wide programs and coordination with community-based organizations (e.g., mental health; health services; health facilities; law enforcement; faith-based).

The range of ways in which the school shall respond once an incident of harassment, intimidation or bullying is identified shall be defined by the principal in conjunction with the school anti-bullying specialist, and shall include an appropriate combination of counseling, support services, intervention services, and other programs as defined by the commissioner.

ADMINISTERING MEDICATION (File Code: 5141.21)

The Board shall not be responsible for the diagnosis and treatment of pupil illness. The administration of medication to a pupil during school hours will be permitted only when failure to take such medicine would jeopardize the health of the pupil, or the pupil would not be able to attend school if the medicine were not made available to him/her during school hours. Exceptions shall be allowed in the circumstances and with the limitations detailed below when a student suffers from a potentially life-threatening illness or a life-threatening allergic condition.

For purposes of this policy, "medication" shall include all medicines prescribed by a physician for the particular pupil, including emergency medication in the event of bee stings, etc., and all non-prescription "over the counter" medication.

Before any medication may be administered to or by any pupil during school hours, the Board shall require the written request of the parent/guardian which shall give permission for such administration and relieve the Board and its employees of liability for administration of medication. In addition, the Board requires the written order of the prescribing physician which shall include:

- D. All medications shall be brought to school by the parent/guardian or adult pupil and shall be picked up at the end of the school year or the end of the period of medication, whichever is earlier;
- E. A student may self-administer medication without supervision of the school nurse for asthma or other life-threatening illnesses. "Life-threatening illness" has been defined as an illness or condition that requires an immediate response to specific symptoms that if left untreated may lead to potential loss of life such as, but not limited to, the use of an inhaler to treat an asthma attack or the use of an adrenalin injection to treat a potential anaphylactic reaction.

The superintendent shall devise procedures to review such requests. These procedures shall include an appeal process as required by New Jersey Administrative Code.

STUDENT INFORMATION DIRECTORIES

The district shall compile, publicize and make available a "student information directory" as defined in the administrative code. Such directory information and school facilities shall be available to educational, occupational and military recruiters as required by law.

The district must notify parents/guardians and adult pupils annually in writing of their rights in regard to pupil participation in educational, occupational and military recruitment programs.

Such rights include:

- A. Notification of these rights in writing, in dominant language of parents/guardians or adult pupil.
- B. A 10-day period in which to submit a written statement to the superintendent prohibiting the district from including any or all types of information about the student in any student information directory before allowing access to such directory and school facilities to educational, occupational and military recruiters pursuant to statute.
- C. A 10-day period to submit a written statement to the superintendent excluding information from any school directory for official use.
- D. Copies of applicable state and federal laws and local policies will be made available on request.

DISTRICT REVIEW OF PUPIL RECORDS

The superintendent/designee shall require all permitted pupil records of pupils currently enrolled in the regular educational program to be reviewed annually by certified school personnel to determine the educational relevance of the material contained therein. The reviewer shall cause to be deleted from the records data no longer descriptive of the pupil or educational situation.

Such information shall be destroyed and shall not be recorded elsewhere nor shall a record of such deletion be made. Such data may not be removed from the record of a student with educational disabilities without prior parental notice, in accordance with N.J.A.C. 6A:14.

RECORDS OF CLASSIFIED PUPILS

All records of disabled pupils shall be maintained in accordance with administrative code and established procedures that will ensure proper accessibility and confidentiality.

A special confidential file shall be maintained listing the code numbers assigned to disabled pupils on whose behalf the board of education must take public action. Motions concerning disabled pupils shall be anonymous and refer to this confidential file. This shall be maintained in accordance with N.J.A.C. 6A:32-7.

Parents/adult pupils or designees shall be permitted to inspect and review the contents of the pupil's record maintained by the district without unnecessary delay and before any meeting regarding the pupil's IEP. Any consent required for disabled pupils under N.J.A.C. 6A:32-7 shall be obtained according to N.J.A.C. 6A:14-1.3 "Consent" and N.J.A.C. 6A:14-2.3.

TRANSFER OF PUPIL RECORDS

- A. The superintendent/designee shall request records of a newly enrolled pupil from the district of previous attendance as soon as possible after enrollment, but in any case within the time limit prescribed by the administrative code.
- B. The superintendent/designee shall forward mandated pupil records as soon as possible upon receipt of the request from the superintendent of the district to which the pupil has transferred, but in any case within the time limit prescribed by the administrative code. Permitted records shall be forwarded in the same manner at the same time if parental permission was given at the time the pupil's parents/guardians informed the district of the transfer.

PERMITTED ACCESS TO PUPIL RECORDS

A non-adult pupil may assert rights of access only through his/her parent/guardian. However, certified school personnel may, in their discretion, disclose pupil records to non-adult pupils or to appropriate persons in connection with an emergency, if such knowledge is necessary to protect the health or safety of the pupil or other persons.

A parent/guardian or adult pupil shall either have access to or be specifically informed about only that portion of another pupil's record that contains information about his/her own child or himself/herself.

A pupil record may be withheld from a parent of a pupil under 18 or from an adult pupil only when the district obtains a court order or is provided with evidence that there is a court order revoking the right to access. Only that portion of the record designated by the court may be withheld.

The Board shall limit access to, disclosure of and communication regarding student records and health records to authorized organizations, agencies or persons as defined by code (N.J.A.C.6A:32-7.5).

Particular attention shall be paid to the development of procedures whereby pupil records are made accessible to assigned secretarial and clerical staff in the performance of their duties, and to compliance with requirements for the security of computerized pupil records that will limit access to authorized persons. Limited access shall be granted to secretarial and clerical personnel under the direct supervision of certified school personnel to those portions of the record and to the extent necessary to record data and conduct routine clerical tasks.

The district will not make a charge for copies.

School personnel are not prohibited from disclosing information in the student health record to students or adults in connection with an emergency, if such knowledge is necessary to protect the immediate health or safety of the student or other persons.

In complying with this policy all individuals shall adhere to N.J.S.A. 47:1A-10, the Open Public Records Act (OPRA) and 20 U.S.C. 1232g; 34 CFR Part 99, the Family Educational Rights and Privacy Act (FERPA).

CONDITIONS OF ACCESS

No pupil record shall be altered or destroyed during the time period between a request to review the record and the actual review of the record. Those from outside the school whose access requires consent of parents/adult pupils must submit the request in writing, together with any required authorization, to the superintendent/designee. District regulations are developed in accordance with code to ensure that

records are not altered, damaged or lost during inspection, and that records of access granted are complete.

RETENTION AND DESTRUCTION OF RECORDS

The superintendent develops regulations in accordance with the administrative code concerning retention and destruction of pupil records. No additions may be made to the record after the graduation or permanent departure of a pupil without the prior written consent of the parent/adult pupil.

The New Jersey district of last enrollment must keep in perpetuity: name, date of birth, gender, citizenship, address, phone number, health history and immunization, standardized assessment and test answer sheet (protocol), grades, attendance, classes attended, grade level completed, year completed, and years of attendance.

TECHNOLOGY (File Code: 6142.10)

The Board shall develop a technology plan that effectively uses electronic communication to advance and promote learning and teaching. This system of technology shall be used to provide local, statewide, national and global communications opportunities for staff and students. Educational technology shall be infused into the district curriculum to maximize student achievement of the Core Curriculum Content Standards.

ACCEPTABLE USE OF THE INTERNET

PURPOSE

To support its commitment to providing avenues of access to the universe of information available, the district's system of electronic communication shall include access to the Internet for students and staff.

LIMITATION OF LIABILITY

The Internet constitutes an unregulated collection of resources that change constantly, so it is not possible to totally predict or control the resources that users may locate. The Board cannot guarantee the accuracy of the information or the appropriateness of materials that a user may encounter. Furthermore, the Board shall not be responsible for any damage users may suffer, including but not limited to, loss of data or interruptions of service. Nor shall the Board be responsible for financial obligations arising through the unauthorized use of the system.

DISTRICT RIGHTS AND RESPONSIBILITIES

The Board shall ensure the acquisition and installation of blocking/filtering software to deny access to certain areas of the Internet as required by State and Federal statutes and regulations.

WORLD WIDE WEB

All students shall have access to the Web through the district's networked or standalone computers. An agreement shall be required. To deny a child access, parents/guardians must notify the building principal in writing.

Individual schools and classes may also establish web sites that include information on the activities of that school or class. The building principal shall oversee these web sites.

The superintendent shall publish and disseminate guidelines on acceptable material for these web sites. The superintendent shall also ensure that district and school web sites do not disclose personally identifiable information about students without prior written consent from parents/guardians. Consent shall be obtained on the form developed by the State Department of Education. "Personally identifiable information" refers to student names, photos, addresses, e-mail addresses, phone numbers and locations and times of class trips.

INTERNET SAFETY AND ACCEPTABLE USE FORM

Please read the following carefully before signing the attached agreement!

The Harrison School District is pleased to be able to offer Internet access to your child at his/her school. The Internet is a vast, global network; linking computers at universities, schools, science centers and other sites. The Internet can give students and teachers access to a variety of rich, educational resources. These resources may include libraries, databases, museums, government institutions and educational sources specifically designed for children. In addition students will have opportunities to participate in online telecommunications projects directly related to their classroom studies. Our goal in providing this service to teachers and students is to promote educational excellence.

Students will be able to access the Internet at a number of locations including the computer labs, media centers, and individual classrooms. To access the Internet students will be using a browser (a software or web-based program) to navigate through information by pointing and clicking the mouse. Information is presented richly in text, pictures, sound, and some video. Students will be able to send electronic mail but will not have their own Internet e-mail address unless specified and approved by (You) as part of educational activity/projects. Students' use of email will occur under the direct supervision of the Technology Coordinator and monitored by the department.

The educational value of information on the Internet is substantial. However, with access to world wide computer systems comes the availability of material that may be considered objectionable and not educationally valuable. There exists information that may be judged as inaccurate, abusive, profane, pornographic or illegal. The Harrison School District does not condone or permit access to or the use of this material. The school will provide student access to Internet resources only in supervised environments and has taken steps to filter out objectionable material by placing internal blocks to unwanted information.

Nonetheless, the district cannot completely prevent the possibility that some users may access material that is not consistent with the educational goals of the school. However, the district believes that the resources and interaction available on the Internet far outweigh the possibility that users may procure material that is not consistent with our educational and technical goals.

Student Responsibility

Students are expected to use Internet resources in a manner consistent with this contract and will be held responsible for their use. Students are responsible for good behavior on school computers, laptops, palms, and networks just as they are in a classroom or other school areas. Use of the Internet is a privilege, not a right; and any inappropriate use will result in a cancellation of those privileges.

Proper & Acceptable Use

Be Polite. Use of abusive, vulgar, threatening or obscene language is strictly forbidden. Students will not engage in personal attacks, harassment of another person, or knowingly post false or defamatory information about another person or organization.

Be Careful. Students are not to damage, deface or vandalize computer or technical equipment. Students are not to change, alter, or damage another student's personal work and/or files. Students will not plagiarize (taking the work of others and presenting them as your own) works they find on the Internet.

Be Aware. Students are not permitted to knowingly access, transmit or download materials that are obscene, pornographic, offensive, threatening or illegal.

Be Safe. Students are not permitted to reveal their own or someone else's full name, address, phone number or other personal identification information via the Intra or Internet.

Be Honest. Students are to notify a staff member immediately, if by accident, you encounter materials that violate the Rules of Appropriate Use.

Be Prepared. Students will be held accountable for their actions and will lose their privileges if the Rules of Appropriate Use are violated.

Understand: Parents/Guardians will be held responsible/liable for any equipment purposely broken or damaged by the student's actions and can be billed if found needed.

The attached form is to be signed by both parent/guardian and student. When completed, please return the form to the student's school. We appreciate your support and cooperation by complying with the AUP: under CIPA regulations Federal Law 2001.

SUSPENSION/EXPULSION (File Code: 5114)**SUSPENSION FROM SCHOOL**

While the Board believes that positive approaches to acceptable behavior are usually more effective, it is sometimes necessary to penalize students for violations of school regulations to ensure the good order of the school and to teach students the consequences of disruptive behavior. Suspension from school is recognized as a severe disciplinary measure, and should not be taken lightly by a student. Re-admittance from suspension may take place only after a parental conference or acceptable equivalent with the principal/designee.

The following infractions may result in suspension:

- A. Harassing, intimidating, bullying, or physically assaulting another student;
- B. Taking, or attempting to take, personal property or money from another student, or from his/her person, by means of force or fear;
- C. Actions that constitute a continuing danger to the physical well being of other students;
- D. Use of profanity or obscene language;
- E. Smoking;
 - a. Smoking inside building or on school grounds
 - b. Smoking in non-smoking areas:
- F. Willfully causing, or attempting to cause, substantial damage to school property;
- G. Taking part in any unauthorized occupancy of a district facility and refusing to leave promptly when directed to do so by a person in authority;
- H. Inciting others to take part in an unauthorized occupancy;
- I. Truancy and class cutting; leaving school property without permission;
- J. Inciting other students to truancy;
- K. Use, possession or sale of a controlled dangerous substance, drug paraphernalia, anabolic steroids or alcohol;
- L. Failure to complete assigned detentions.
- M. Willful disobedience, or open defiance of the authority of any member of the faculty;
- N. Any other infraction that may be imposed by New Jersey School Law that may be grounds for suspension, alternative educational placement, or expulsion;
- O. Physical assault upon another student, a teacher, or any other school employee with or without a firearm or other weapon;
- P. Use or possession of unsafe or illegal articles;
- Q. Turning in a false alarm;

- R. Tampering with or damaging property of other students or staff members.
- S. Selling or buying lottery tickets or any other gambling paraphernalia on school property.

ASSAULT ON STAFF

Any student who commits assault (as defined by N.J.S.A. 2C:12-1) with or without a weapon upon a Board member, teacher, administrator or other employee of the Board shall be suspended from school immediately according to procedural due process, and suspension or expulsion proceeding shall begin no later than 30 calendar days from the date of the student's suspension.

POSSESSION OF FIREARM/CRIME INVOLVING FIREARM

Any student who is convicted or adjudicated delinquent for possession of a firearm or a crime while armed with a firearm or found knowingly in possession of a firearm on any school property or on a school bus or at a school-sponsored function shall be immediately removed from the school's regular education program for a period of not less than one calendar year. The superintendent may modify this suspension on a case-by-case basis. Each student so removed shall be placed in an alternative educational program or on home instruction and shall be entitled to a hearing before the Board. The hearing shall take place no later than 30 days following the day the student is removed from the regular education program and shall be closed to the public (as per N.J.A.C. 6A:16-5.5(a)).

The principal shall be responsible for the removal of such students and shall immediately report them to the superintendent. The principal shall also notify the appropriate law enforcement agency of a possible violation of the New Jersey Code of Criminal Justice.

The superintendent shall determine at the end of the year whether the student is prepared to return to the regular education program, in accordance with procedures established by the Commissioner of Education.

REPEATED SUSPENSIONS FROM SCHOOL

Any student suspended for a third time will be suspended for a minimum of five (5) school days for that third suspension. In such a case, a conference must be held with the parents/guardians or acceptable substitute, the student, the principal, and the student's guidance counselor.

IN-SCHOOL SUSPENSION

In-school suspension will be assigned by the principal for repeated infractions of school rules or for any single infraction which, in the judgment of the administration, may be serious enough warrant this disciplinary measure.

GENERAL

Students on out of school suspension shall be counted absent unless the duration of the suspension requires home instruction. Students under suspension are prohibited from participating in or attending any school-regulated activity during the period of their suspension. They may not enter the school buildings or grounds of this district without the permission of the superintendent. Any student under suspension who enters the school buildings or grounds without permission of the superintendent may have the period of his/her suspension extended. The right to continue suspension or to expel is reserved to the Board, acting upon the recommendation of the administration.

MAKING UP MISSED WORK

Students who are under suspension will be required to make up all assignments missed during the period of their suspension and will be given adequate opportunity to make up this work.

Upon readmission, failure to complete the makeup assignments will result in a meeting with the parents/guardians. The principal will notify parents/guardians immediately.

PROCEDURES

The superintendent, in consultation with the Board Attorney, shall develop regulations to assure due process to all students before a suspension is imposed. This due process shall include:

- A. Informing the student of the charges against him/her; and
- B. Giving the student a chance to reply to them.

When a principal imposes a suspension, he/she must report it immediately to the superintendent, who will in turn report it to the Board. No suspension for reasons other than assault upon a teacher, administrator, Board member or other Board employee may continue beyond the second regular meeting of the Board following the suspension without Board action. No suspension for assault upon a teacher, administrator, Board member or other Board employee may be continued beyond 30 days without Board action. A suspended student may be reinstated by the superintendent before Board action.

Each student shall be afforded an informal hearing before the suspension or, if circumstances prohibit, as soon as possible after the suspension. If the offense involves a weapon or assault with or without a weapon, the hearing shall take place no later than 30 days after the suspension occurs.

The Board shall make a decision within five days of the close of the hearing. Any appeal of the Board's decision shall be made to the Commissioner of Education within 90 days of the Board decision.

The Board requires that such hearing shall be closed to the public, but should all parties thereto agree, the hearing may be publicly held. Each suspended student who has requested a formal hearing shall be restored to the regular education program pending the outcome of the hearing, except when, in the opinion of the superintendent the presence of the student in school poses a danger to himself/herself or others as to warrant continued absence.

Each student suspended from the schools of this district shall receive individual instruction commencing no later than 5 working days after the suspension occurs, except that the Board may, on the recommendation of the superintendent assign the student to an alternative program to meet his/her needs (see policy #6172).

EXPULSION

"Expulsion" is the permanent denial of the student's right to attend school and may be imposed only by the Board. A student may appeal an expulsion decision of the Board as indicated above for suspension.

PUPIL GRIEVANCE PROCEDURE (File Code 5145.6)
(FOR FORMS SEE PAGES 31, 32 and 33)

Each school shall establish procedures for the consideration of pupil problems and for the processing of their complaints and appeals. These procedures should be developed through the cooperative efforts of pupils, faculty and administrators. The superintendent or designee shall establish and maintain procedures for appeals beyond the decision of the principal. Details of those procedures should be made

known to pupils and staff, and pupils who wish to use them should be assured of access to the appropriate personnel within a reasonable period of time.

Due Process procedures should include, but not be limited to the following:

- A. The student will meet with the building administrator to discuss the alleged misconduct.
- B. The student will be given the opportunity to present his/her side of the story.
- C. An administrative inquiry will be made on the basis of the information provided by the student and others. The administrator as a result of this investigation will then make a determination.
- D. Parent/guardian may be contacted and encouraged to participate in this process if applicable.
- E. If for any reason the student is not satisfied with the outcome he/she may file a formal grievance in writing with the principal. The principal will schedule the appropriate meetings with the superintendent.

ROLE OF PARENTS/GUARDIANS (File Code 5020)

The Board believes that the education of children is a joint responsibility, one it shares with the parents/guardians and the school community. To ensure that the best interests of the child are served in this process, a strong program of communication between home and school must be maintained and parental involvement in district concerns encouraged.

The Board recognizes the vital role of parents/guardians in the welfare and education of their children and the pivotal part they play in shaping character and values. Because parents/guardians are familiar with the needs, problems, gifts and abilities of their children, staff should seek to involve parents/guardians as much as possible in the planning of the individual program. Parents/guardians must, by law, be included in the development of certain educational programs for their children.

Parents/guardians are requested to keep the school apprised of changes in factors in the home situation which may affect student conduct or performance. Parents/guardians are specifically required to inform the school of any changes in legal custody of the child.

Parents/guardians are responsible for their child's punctuality, attendance, health, cleanliness and propriety of dress.

The superintendent shall develop procedures and regulations to implement this policy. These regulations shall include use of the parent/guardian's native language when necessary.

REPORTING TO PARENTS/GUARDIANS (File Code: 5124)

The Board believes that the cooperation of school and home is vital to the growth and education of the whole child. It recognizes its responsibility to keep parents/guardians informed of pupil welfare and progress in school.

The Board directs the establishment of a system of reporting pupil progress that shall include written reports, pupil-teacher conferences, and parent/guardian-teacher conferences. If the parent/guardian's primary language is other than English, translation shall be provided whenever possible.

The superintendent shall develop procedures for reporting pupil progress which:

- A. Use various methods of reporting appropriate to grade level and curriculum content;
- B. Ensure that both pupil and parent/guardian receive ample warning of a pending grade that would adversely affect the pupil's status;
- C. Enable the scheduling of parent/guardian-teacher conferences in such places and at such times as will ensure the greatest degree of participation by parents/guardians;
- D. Specify the issuance of report cards periodically during the school year and issuance of deficiency notices as required during the school year;
- E. Ensure the continual review and improvement of methods of reporting pupil progress to parents/guardians and involve pupils, staff and parents/guardians in that review.

A record shall be kept indicating the legal custodian of each pupil, so that reports can be made to and conferences arranged with the proper person.

PARENTAL NOTIFICATION

The superintendent shall develop regulations to ensure that parents/guardians are notified in all instances when the law and/or the best interests of the pupil and the district require it.

AT-RISK AND TITLE I (File Code: 6171.3)

The district shall comply with all state and federal requirements in developing, implementing, administering and evaluating funded compensatory education programs and programs for pupils determined to be at risk.

Such instructional services and activities shall be designed to improve the level of proficiency in reading, writing, mathematics and other skills of pupils whose academic, social or environmental needs prevent them from succeeding in regular school programs, and to prevent their regression in such skills when regular programs are not in session. Parents/guardians shall be kept informed of their children's progress and shall be invited to consult with staff on ways to give their children the maximum benefits of such programs.

At least once annually, a public meeting shall be held for the express purpose of informing parents/guardians of the programs and activities provided with Title 1 funds. The agenda shall include:

- A. Informing parents/guardians of their right to consult in the design and implementation of Title 1 project;
- B. Providing parents/guardians with information about the Title 1 law, regulations and instructional programs;
- C. Soliciting parents/guardians' input about basic skills improvement programs and related activities;
- D. Providing parents/guardians an opportunity to establish mechanisms for maintaining ongoing communication among parents/guardians, staff, and the Board.

The parents/guardians of all eligible children shall be invited to attend.

MANDATED POLICY STATEMENTS IN ADDITION TO PARENT CONSULTATION

The Harrison Public Schools shall use Title I funds only to supplement and to the extent practical increase the level of funds that would, in the absence of Title 1 funds, be made available for the education of pupils participating in Title 1 or state compensatory education projects. In no case shall Title 1 funds be used to supplant those non-Title 1 or nonstate compensatory education funds.

D. Maintenance of effort
